Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 3, 6-8, 17 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Parker (US 3,474,209) in view of Kinn (US 2,650,291). Parker discloses a dielectric heating having waveguide (10) comprising broad walls (B, Figure below) separated by and electromagnetically coupled with at least one narrow wall (N, Figure below) has a nonlinear profile. Parker also discloses the broad walls having a slot (S, Figure below).

However, Park does not disclose discloses the broad walls having a slot at least partially off-center. Kinn discloses broad walls having a slot (11,13) at least partially off-center (the figure). It would have been obvious to one having ordinary skill in the art at the time the invention was made to utilize in Parker a broad walls having a slot at least partially off-center as taught by Kinn in order to provide a uniform heating to the strip of material.

3. Claims 2, 4-5 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Parker (US 3,474,209) in view of Kinn (US 2,650,291) and further in view of Soulier (US 3,784,777). Parker/Kinn disclose substantially all features of the claimed invention except said field modifier is adjustable. Soulier discloses, figure 3) a modifier is adjustable (18-18n). It would have been obvious to one having ordinary skill in the art at the time the invention was made to utilize in Parker/Kinn a modifier is adjustable as taught by Soulier in order to adjust more or less concentrate the field in different areas and to uniform heat a sheet having non-constant thickness.

4. Claim 9 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not show or suggest said field modifier is configured to provide a relative slot height profile as define by

$$h(z) = (b/\pi) \sin^{-1} [(1/\sin^2(\pi h_0/b) - 2\omega Z \epsilon_0 \epsilon''_r t z/b)^{-1/2}] \text{ as recited in claim 9.}$$

Response to Amendment

6. Applicant's arguments with respect to claims 1-9 and 17-19 have been considered but are moot in view of the new ground(s) of rejection.
7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
